...

The teaching philosophy of the school follows activity-based learning which suggests that a child may learn in different ways depending on her/his innate aptitude. Education is indeed a journey together where the teachers help the children discover and hone their strengths and talents. School is a place of great diversity where the students learn to enjoy similarities and celebrate differences. Once a student enters the portals of this school, she/he has only one identity, that of a proud Pacifican, and one aim, that is to make tomorrow better than today.

THE GUIDING LIGHT

MS. SEEMA KAUR

Principal, Pacific World School

I am indeed honoured and proud to be associated with this remarkable institution which offers comprehensive and holistic education to its students. Our goal is to inculcate in all Pacificans, a love for learning, and a desire to excel in sports and co-curricular activities. The school provides a safe and intellectually challenging environment that will empower the students to be innovative thinkers, creative problem solvers and lifelong learners prepared to thrive in the 21st century. To sum up, the mission of the school is to 'Open Doors and Open Minds' and prepare the ground for the future of the nation.

Aristotle once said that educating the mind without educating the heart is no education at all. As the principal, I am delighted that the core values of our school- Ethics, Enquiry and Enterprise, align with my own personal values.

Teamwork is the hallmark of Pacific World School. I am fortunate to have an experienced, passionate and committed team which has brought the school to its present heights.

Our journey towards excellence continues...
